

Original Bavarian base and speciality malts since 1856

IREKS Crystal Birch

Colour:	10 - 15 EBC
Lovibond:	4 - 6
Type of beer:	Pilsner, Lager, Export, Kölsch, Ale
% of the grist:	5 - 30

Description/Application:

Should a moderate variation of the beer colour with a simultaneous increase in the full-bodied taste and foam stability be required, then this IREKS crystal malt is strongly recommended.

Production:

Saccharified, caramelized and roasted in the roasting drum.

Standard specification:

			Method*
Extract, dry matter	> 77	%	R-260.02.080 [2016-03]
Moisture Content	< 9	%	R-200.18.020 [2016-03]
Wort Colour	10 - 15	EBC	R-261.01.110 [2016-03] R-205.07.110 [2016-03]
Protein Content, dry matter	< 13.5	%	R-200.20.030 [2016-03]
pH-value	5.0 - 5.8		R-205.06.040 [2016-03]

*Analysis method according to MEBAK, Raw Materials, 2016

Brewing grain is a natural product and is subject to qualitative fluctuations which can have an effect on the specification values listed.
