

Original Bavarian base and speciality malts since 1856

IREKS Mela Red Alder

Colour:	40 - 50 EBC
Lovibond:	15 - 20
Type of beer:	dark beers, Festbier, strong beers, Rotbier, craft beers
% of the grist:	10 - 50

Description/Application:

Due to a special process, stewing, especially many low-molecular substances are formed in this IREKS kiln-dried malt, which are transformed into strong aroma and colour substances during subsequent kilning. For this reason, this malt is particularly suitable for supporting a strong malt aroma and achieving, at the same time, hues of red which come from the melanoidins formed.

Standard specification:

			Method*
Extract, dry matter	> 76	%	R-260.02.080 [2016-03]
Moisture Content	< 5	%	R-200.18.020 [2016-03]
Wort Colour	40 - 50	EBC	R-261.01.110 [2016-03] R-205.07.110 [2016-03]
Protein Content, dry matter	< 12.5	%	R-200.20.030 [2016-03]
pH-value	5.0 - 5.8		R-205.06.040 [2016-03]

*Analysis method according to MEBAK, Raw Materials, 2016

Brewing grain is a natural product and is subject to qualitative fluctuations which can have an effect on the specification values listed.
